

INTEGRATION OF HEALTHLINK MESSAGES WITH GP CLINICAL

To export all your Unprocessed Messages scroll down to the bottom of the page and click the **Export All** button.

SCREEN SHOT 1

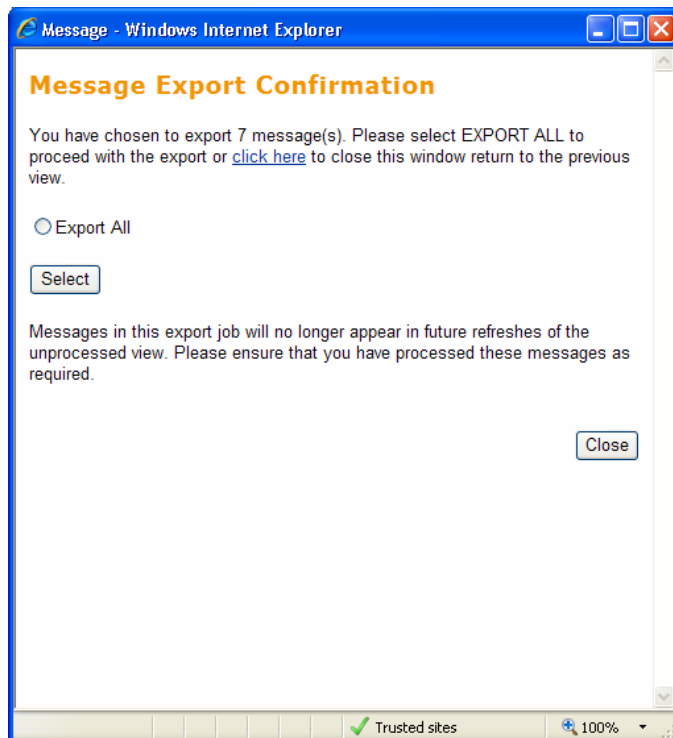

The screenshot shows the HealthlinkOnline interface in a Windows Internet Explorer browser. The page title is "Welcome to HealthlinkOnline - Windows Internet Explorer". The address bar shows the URL "https://84.203.243.40/ViewUnprocMsg.aspx". The page has a navigation menu with buttons for "Support", "View New Messages", "View Unprocessed Messages", "Search", "Lab Order", "Referrals", "Report an Issue", and "Profile". Below the navigation menu, there is a warning message: "ATTN: All Dynamic GP Users Helix Health have notified us of an integration problem with the latest version of Dynamic. We recommend you do not integrate any results until you speak to Helix Health." Below the warning, there is a "Welcome: PMS Test" message. The main content area displays a table of unprocessed messages with columns for "Status", "Select", "Patient Name", "Sender", "Patient MRN", "Recipient", "Msg_Type", and "Date". The table contains 7 rows of data. Below the table, there is a "Total Count: 7" label. At the bottom right of the page, there are four buttons: "Export All", "Print All", "Export Selection", and "Print Selection". A box labeled "Export All" with an arrow points to the "Export All" button.

Status	Select	Patient Name	Sender	Patient MRN	Recipient	Msg_Type	Date
	<input type="checkbox"/>	TOMKINS, RENA	UNIVERSITY COLLEGE HOSPITAL GALWAY	31179APE	Test, PMS Lab Result: Microbiology	14/11/2007 09:50:00	
	<input type="checkbox"/>	O'BRIEN, HELEN	UNIVERSITY COLLEGE HOSPITAL GALWAY	16852HNGY	Test, PMS Lab Result: Microbiology	14/11/2007 09:50:00	
	<input type="checkbox"/>	DUNNE, MARGARET	UNIVERSITY COLLEGE HOSPITAL GALWAY	0632076	Test, PMS Lab Result: Microbiology	14/11/2007 09:50:00	
	<input type="checkbox"/>	DUNNE, CHARLES	UNIVERSITY COLLEGE HOSPITAL GALWAY	4109CSOL	Test, PMS Lab Result: Microbiology	14/11/2007 09:40:00	
	<input type="checkbox"/>	DOM, ANN	MATER MISERICORDIAE HOSPITAL	0129853	Test, PMS Radiology Result	15/08/2007 09:45:00

	<input type="checkbox"/>	KENNEDY, JOHN	MATER MISERICORDIAE HOSPITAL	0801253	Test, PMS OPD Appointment	11/08/2007 06:32:00	

A Message Export Confirmation page opens giving the number of messages you have chosen to export.

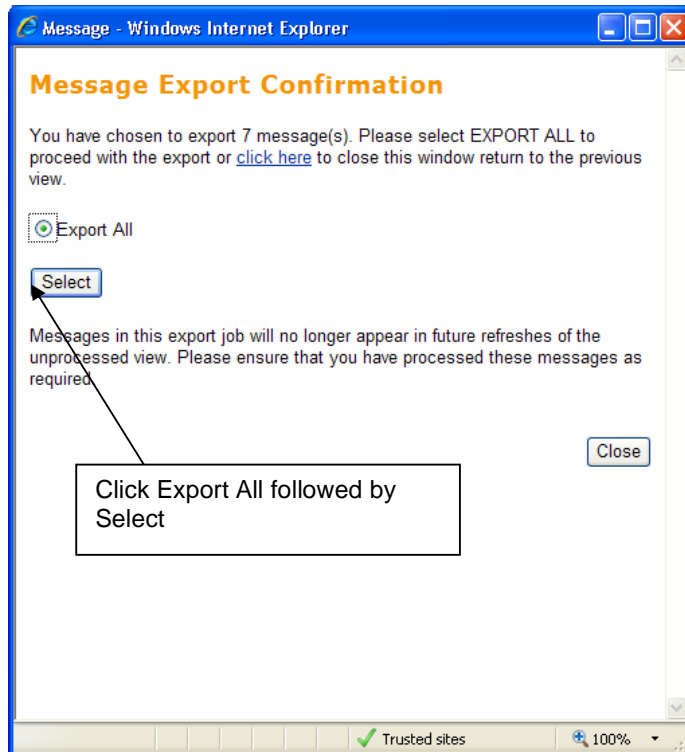

SCREEN SHOT 2

The screenshot shows a "Message Export Confirmation" dialog box in a Windows Internet Explorer browser. The dialog box has a title bar that says "Message - Windows Internet Explorer". The main content area contains the following text: "Message Export Confirmation", "You have chosen to export 7 message(s). Please select EXPORT ALL to proceed with the export or [click here](#) to close this window return to the previous view.", a radio button labeled "Export All", and a "Select" button. Below this, there is a paragraph: "Messages in this export job will no longer appear in future refreshes of the unprocessed view. Please ensure that you have processed these messages as required." and a "Close" button. The dialog box is set against a white background with a blue border.

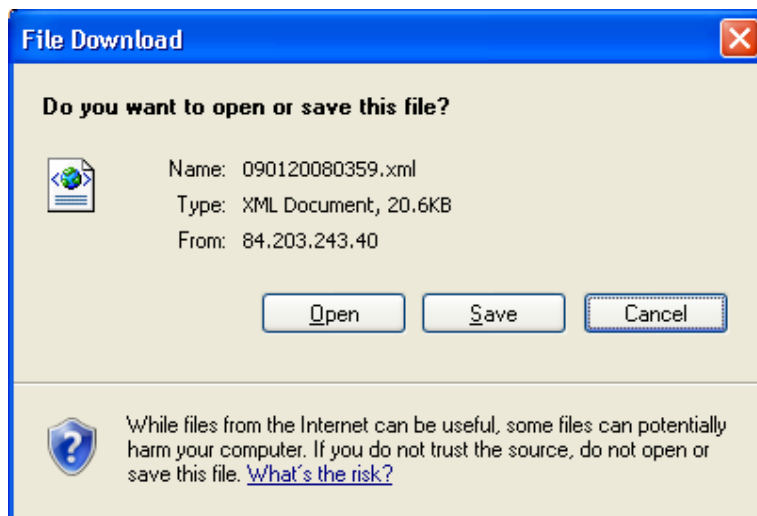

Put a dot in **Export All** and click **Select**.

SCREEN SHOT 3

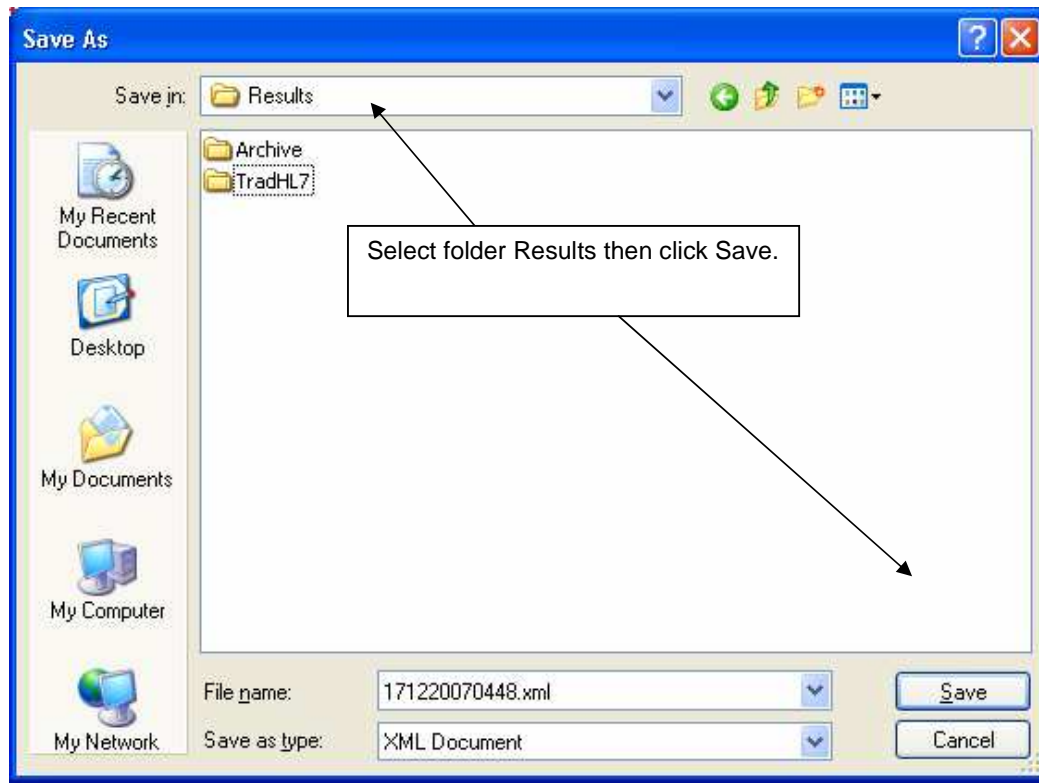

Next, a File Download message opens and you are asked if you want to open or save the file, click **Save**.

SCREEN SHOT 4

You must now choose where to save the file. The pick-up folder for GP Clinical is **GPSystem\Results** which is usually on your C-drive or perhaps a Server. Browse to this location by clicking on the drop down arrow beside 'Save in'. We have entered the file name automatically for you, the date & time.xml so you don't need to change this. Click 'Save' to complete.

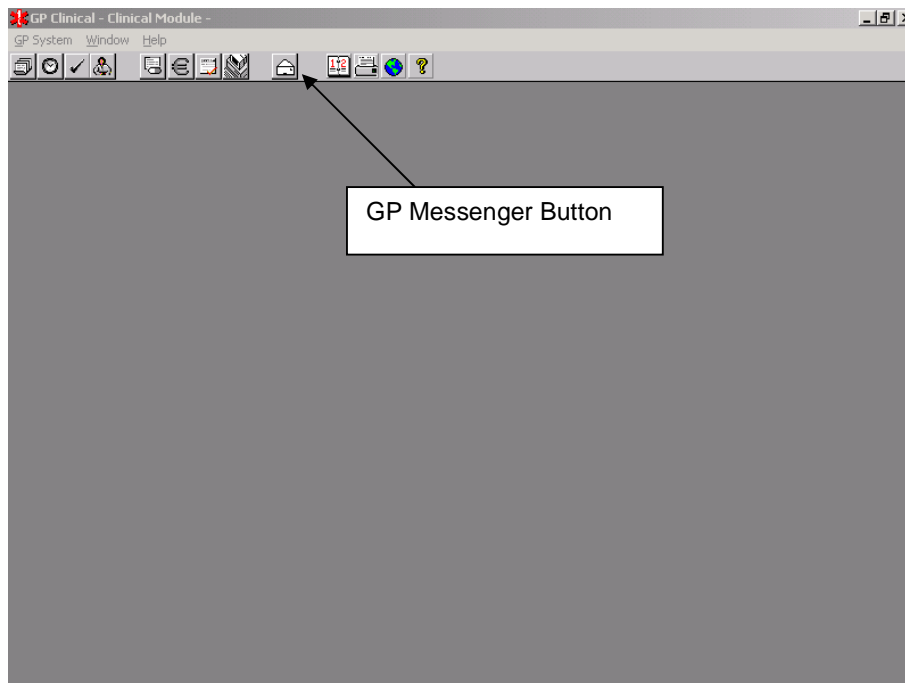

SCREEN SHOT 5

You may get a **Download Complete** message when the file has finished saving. Click OK to this and then close the Message Export Confirmation window by clicking on the 'X' at the top right hand corner. Note: after exporting the messages they will no longer be viewable in the 'Unprocessed Messages' view.

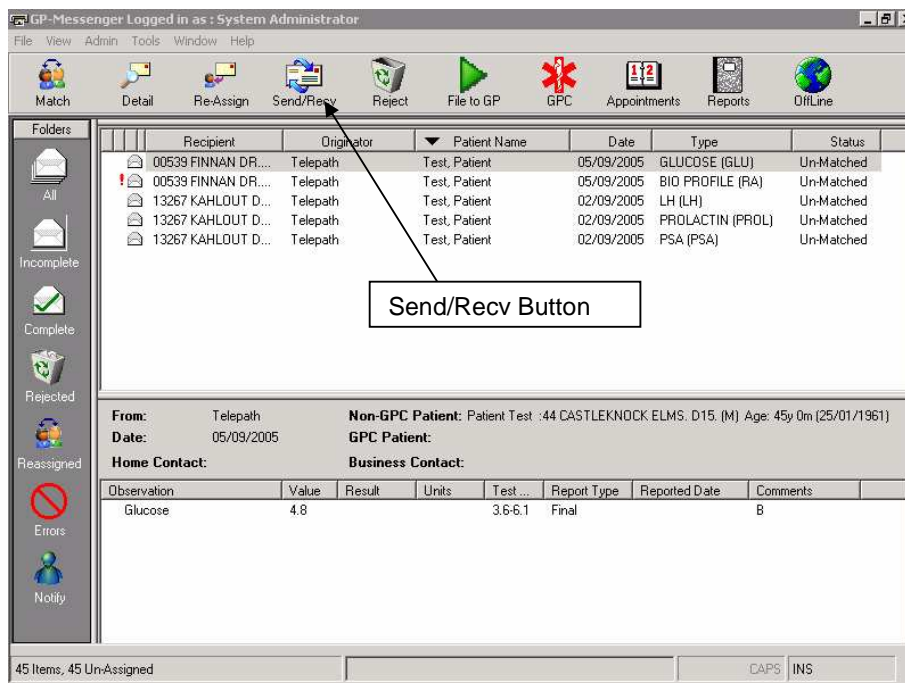

The results have now been exported to GP Clinical but are not yet in the patient records. To complete this process open GP Clinical and click on the GP Messenger button as indicated:

SCREEN SHOT 6

When GP Messenger opens, click on the Send/Recv button which will import the Healthlink messages.

SCREEN SHOT 7

Finally, click 'Match' followed by 'File to GP' to integrate the messages into the patient file.
